PRINTING & PACKAGING (Pty) Ltd.

ELIBEE PRINT
A DIVISION OF SHEPCO

PREMIUM PRINTING • FLEXIBLE PACKAGING • BRANDING SOLUTIONS

Shepco + Elibee

Over 50 Years of Quality, Reliability, and Craftsmanship.

Based in our modern Pinetown facility, Shepco Printing & Packaging delivers high-quality print and packaging solutions under one roof. Established in 1975, with roots dating back to 1928, the company combines legacy expertise with a focus on precision, innovation, and ISO 9001:2015 standards to ensure consistent, high-performance results across every stage of production.

From concept and structural design through print, packaging, speciality products, finishing, assembly and delivery — one practical manufacturing partners

Shepco is known for high-quality folding cartons and packaging solutions, while Elibee has built a reputation in specialised printing, retail products, binding and promotional material.

Together, these capabilities now operate as one integrated production environment — giving customers a complete end-to-end solution from concept through to finished product. The integration also adds advanced digital printing through our production press.

This means you can now source a far wider range of products from one experienced supplier, with design, sampling, digital and lithographic printing, die-cutting, finishing, assembly and delivery all managed under one roof.

Packaging That Performs

Folding cartons and printed packaging remain at the heart of Shepco — from pharmaceutical and FMCG work to retail, cosmetic and specialist presentation packaging.

FOLDING CARTONS • FMCG • PHARMA • RETAIL • PRESENTATION PACKAGING

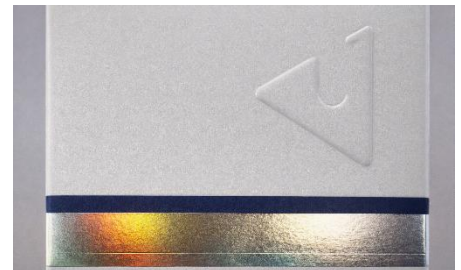

Lithographic Printing & Premium Finishing

For demanding packaging and commercial work, Shepco combines lithographic printing with in-house conversion and premium finishing.

Litho printing delivers exceptional colour accuracy, sharp detail and a premium finish, making it ideal for high-quality, high-volume print projects. For larger production runs and demanding commercial or packaging applications, Shepco offers extensive lithographic printing capabilities.

BIGENOUGH FOR SERIOUS PRODUCTION.

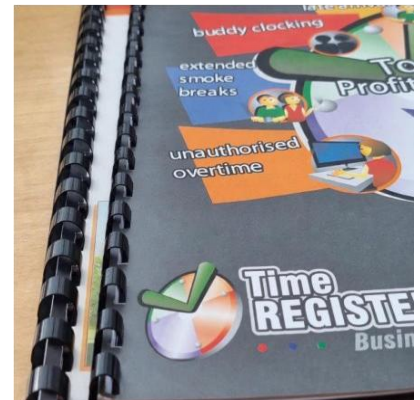

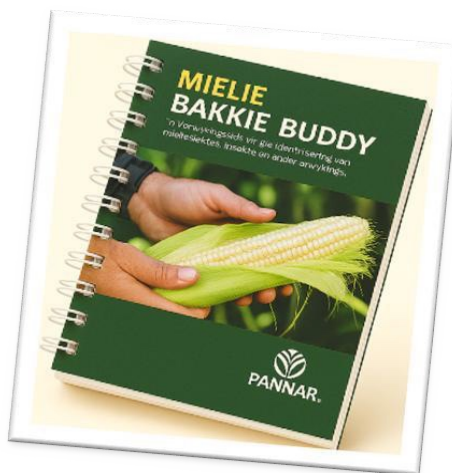

Small enough to stay responsive.

More Than Packaging

Elibee expands the range into cards, binding, presentation products, point-of-sale and speciality printed solutions.

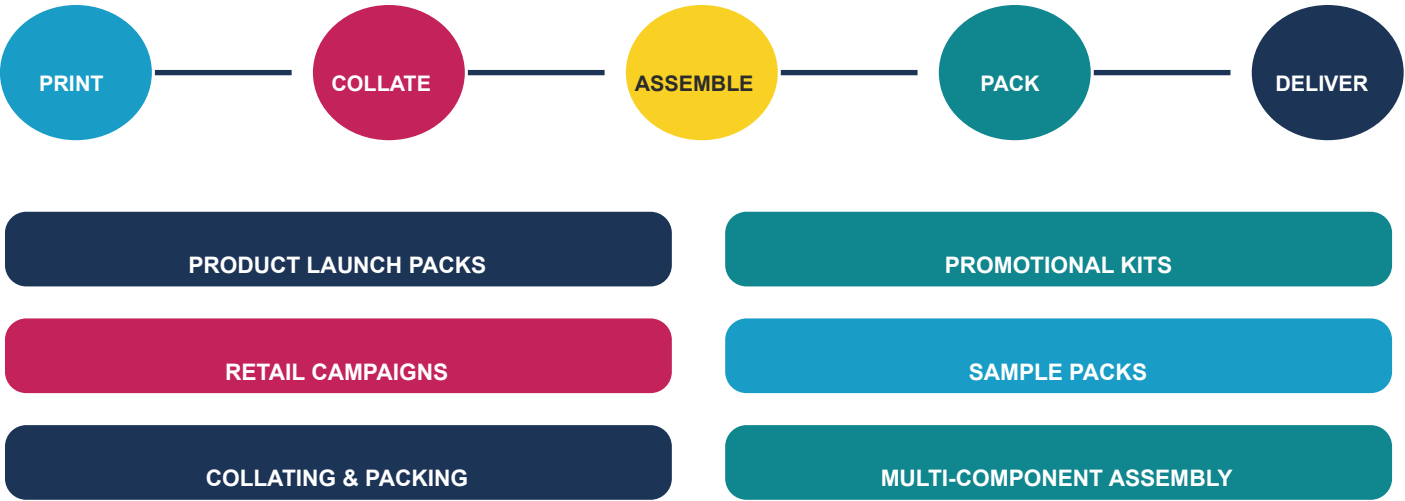

PVC • GIFT • LOYALTY • MEMBERSHIP • SPECIALITY CARDS

EASIBIND • THERMAL • WIRE • COMB • PUR BINDING

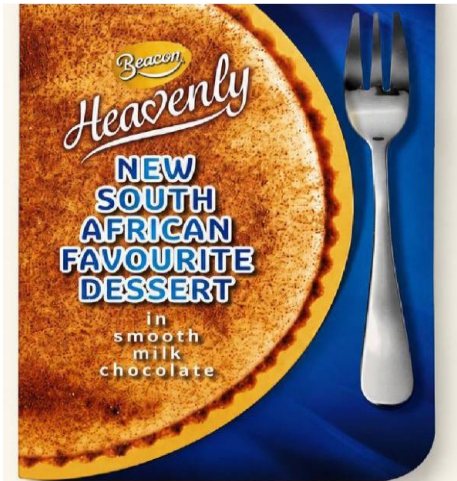

We Don't Just Print It. We Put It Together.

Kitting and assembly turn multiple printed components into one finished, ready-to-use product — reducing hand-offs and simplifying purchasing.

Digital Printing & Prototyping

Digital print supports the wider manufacturing operation when speed, low quantities, samples or testing matter more than long-run economics

Digital Printing Is Particularly Suited To:

- Short and medium production runs
- Urgent turnaround requirements
- Product samples and prototypes
- Trial packaging
- Personalised and variable-data printing
- Limited-edition products
- Marketing campaigns
- Corporate presentations
- Brochures, booklets and catalogues
- Invitations and cards
- Promotional material
- High-quality colour proofs

One Partner. More Capability.
